フィールドワーク(2)

[Regarding studies out of class (preparation and review)]

This class requires participation in the community-based health check-up examination in Nagahama city, Shiga prefecture.
Making a report based on field work is to be regarded as review of the class.

(Others (office hour, etc.))

Participating in real field activities are extremely important experience. This class is strongly recommended for all SPH students.

If graduate students with the school of human health science hope to take a class, please contact with us before a class.

*Please visit KULASIS to find out about office hours.
