

<b>Course title</b> <English>	グローバルヘルス通論 Global health	<b>Affiliated department, Job title, Name</b>	Graduate School of Medicine Professor, KIHARA MASAHIRO		
<b>Grade allotted</b>	1st year students or above	<b>Number of credits</b>	2	<b>Course offered year/period</b>	2015/Second semester
<b>Day/period</b>	Wed.3	<b>Class style</b>	Lecture	<b>Language</b>	English
<b>[Outline and Purpose of the Course]</b>					
*this is the course provided by the Interdisciplinary Unit for Global Health					
This course includes a wide variety of classes to provide students with insight into the current challenges for global health. Students will be introduced to the socio-cultural, economic, political, and environmental factors that affect the health of populations globally. We will also examine global health interventions to understand features of successful programs. A series of guest speakers will be drawn from diverse fields to share their expertise.					
<b>[Course Goals]</b>					
Gain an understanding of why tackling global health issues is such an important endeavor with the potential to reduce poverty, build stronger economies and promote peace.
