Kyoto University School of Public Health (KUSPH) invites its students and staff to the special lecture series on “**Research Integrity: Telling the truth and exposing lies**” by **Professor Ian Roberts, London School of Hygiene & Tropical Medicine**. Ian Roberts is Professor of Epidemiology & Public Health and co-director of the Clinical Trials Unit at the London School of Hygiene & Tropical Medicine. He is the principal investigator of several large international randomised controlled trials. His current focus is the conduct of large scale trials of tranexamic acid in the management of acute severe bleeding.

Date	Time	Venue	Topic of discussion
Aug 1 (Tue)	10:30 am -12:00 pm	Large Seminar Room, 1st floor, Science Frontier Building, Medical campus	<b>Research integrity and why it matters?</b> An introduction to research integrity including definitions and prevalence.
Aug 2 (Wed)	10:30 am -12:00 pm		<b>The anatomy of research fraud.</b> Some important cases of research misconduct aimed at stimulating discussion about how to prevent it.
Aug 3 (Thu)	10:30 am -12:00 pm		<b>Which misconduct matters the most?</b> Although fabrication and falsification receive most attention, selective reporting and the opportunistic use of the play of chance may be more likely to harm patients.
Aug 4 (Fri)	10:30 am -12:00 pm		<b>Statistical methods for monitoring data integrity.</b> How statistical methods can help to ensure data integrity in research studies.
Aug 7 (Mon)	10:30 am -12:00 pm	Seminar room 335, 3rd floor, G-building, Medical campus	<b>What would you do now?</b> A discussion based lecture based around a series of real research misconduct scenarios.
	13:00 pm -14:30 pm		<b>Bad people or bad systems?</b> How should we reduce the risk to patients from research misconduct – is research misconduct a personal failure or a system failure?
